

2006 Inland Sweep Annual Report

The 18th annual Beach Sweep River Sweep statewide clean up occurred on September 16, 2006 from 9am-12pm. Weather conditions across the state were warm and favorable for the event. In most places the water levels allowed suitable access. For the inland portions of the state, site captains in 29 counties reported holding Sweep events.** 63 sites were registered by site captains and, of those, data were received for 47 sites for a response rate of 75%. A response was considered to be a communication from the site captain regarding the number of volunteers, amount of trash collected (either by weight or bags), and approximate miles covered. Data from the event are presented below in several tables. If you have further questions, please contact

2006 Site Captain Reported Information by County

Information presented below was gathered using Beach Sweep River Sweep data cards completed by participants on the day of the event and mailed to the inland coordinator as well as site captain reports submitted by email or telephone after the event. Cumulative figures presented as totals represent a reasonable estimate of citizen participation, litter collected, and miles covered.

There are limited data for coastal counties presented here; however, as noted above, the numbers below do not include the many coastal sites and volunteers coordinated by the Coastal Coordinator, Susan Ferris Hill of the SC Sea Grant Consortium. Figures for the coastal counties including Beaufort, Charleston, Colleton, Dorchester, Georgetown, Horry, and Jasper are available from the SC Sea Grant Consortium.

* Anderson County is attributed large numbers resulting from extensive cleanup efforts reported for Lake Hartwell organized by park staff of the Corps of Engineers. There was also a large cleanup involving 300 volunteers at Sadler Creek State Park organized by SC State Park staff. The numbers for Anderson County include all Lake Hartwell volunteers, pounds, miles, and bags from Oconee County, Pickens County, and portions of Georgia.
